

THE MOLOK FAMILY - **NOW IN IRELAND** A UNIFORM DEEP COLLECTION SYSTEM FOR THE RECYCLING OF WASTE

The Molok deep collection system is designed to fit well in the surrounding landscape. A wide range of finishes offers the best possible solution for a variety of locations.

THE ONLY UNIFORM RECYCLING SYSTEM

Model	Outer diameter	Recommended waste
Molok 300 l	600 mm	parks and beaches
Molok 800 l	750 mm	parks and beaches
Molok 1.3 m ³	900 mm	biowaste, glass, paper, mixed waste, metal
Molok 3.0 m ³	1300 mm	mixed waste, glass, paper, plastic, metal
Molok 5.0 m ³	1700 mm	mixed waste, paper, plastic, metal

The Molok deep collection system is compact and saves in costs:

- the only uniform recycling system available
- enables high collection capacity in a limited area
- more space for recreational and utility purposes
- no need for additional structures
- easy to empty at difficult locations, e.g. behind a fence or a wall
- high filling degree: gravity compresses the waste to the bottom of the container
- the coolness of the earth helps prevent odours
- savings due to longer emptying intervals
- manufactured from polyethene, which is durable, resistant and easy to keep clean
